

				Humboldt-Del Norte Weed Management Area								
					Priority Action Weed Lists							
						Mar-06						
WMA rankings below						California, Oregon, and Washington state rankings, and						
						California Invasive Plant Council rankings below						
COASTAL DUNES												
Scientific Name			Common Name			CDFA Rating		Quarantine		Cal IPC		
PRIORITY MANAGEMENT												
Ammophila arenaria			European beachgrass							HIGH		
Briza/Bromus/Aira			annual grasses							MODERATE		
Cortaderia jubata/selloana			jubata (pampas) grass							HIGH		
Carpobrotus edulis			iceplant							HIGH		
Lupinus arboreus			yellow bush lupine									
RED ALERT												
Arctotheca calendula			fertile capeweed			A				MODERATE/ALERT		
Conicya monensis			coincya									
Oxalis pes-caprae			bermuda buttercup/sourgrass							MODERATE		
Senecio elegans			redpurple ragwort									
Ulex europaeus			gorse			B		OR/WASH		HIGH		
MONITOR												
Bellardia trixago			bellardia							LOW		
Foeniculum vulgare			fennel							MODERATE		
Hirschfeldia incana			Mediterranean mustard							MODERATE		
Hypochaeris glabra			smooth catsear							LOW		
Leontodon taraxacoides			lesser hawkbit									
Lotus corniculatus			birds foot trefoil							LOW		
Parentucellia viscosa			yellow parentucellia									
RANGELAND/INLAND												
Scientific Name			Common Name			CDFA Rating		Quarantine		Cal IPC		
PRIORITY MANAGEMENT												
Carduus pycnocephalus			Italian thistle			C		OR/WASH		MODERATE		
Centaurea maculosa			spotted knapweed			A		Oregon		HIGH		
Centaurea solstitialis			yellow starthistle			C		Oregon		HIGH		
Cirsium arvense			Canada thistle			B		Oregon		MODERATE		

Cirsium vulgare		bull thistle			B		Oregon		MODERATE			
Cytisus scoparius		Scotch broom			C		OR/WASH		HIGH			
Genista monspessulana		French broom			C		Oregon		HIGH			
Senecio jacobaeae		tansy ragwort			B		OR/WASH		LOW			
Taeniatherum caput-medusae		medusa head			C		Oregon		HIGH			
RED ALERT												
Arctotheca calendula		fertile capeweed			A				ALERT			
Centaurea diffusa		diffuse knapweed			A		OR/WASH					
Euphorbia lathyris		gopher weed							Evaluated; not listed			
Euphorbia oblongata		eggleaf spurge			B		WASH		LOW			
Phalaris aquatica		harding grass							MODERATE			
Spartium junceum		Spanish Broom					OR/WASH		HIGH			
MONITOR												
Centaurea melitensis		totalote							MODERATE			
Festuca arundinacea		tall fescue							MODERATE			
Holcus lanatus		velvet grass							MODERATE			
Hypericum perforatum		Klamathweed			C				MODERATE			
WILDAND-URBAN INTERFACE (WUI)												
Scientific Name		Common Name			CDFA Rating		Quarantine		Cal IPC			
PRIORITY MANAGEMENT												
Buddleja davidii		butterfly bush					Oregon		Evaluated; not listed			
Cotoneaster pannosa/franchetti		cotoneaster							MODERATE			
Delairea odorata		cape ivy							HIGH			
Erica lusitanica		Spanish heather										
Hedera helix		English ivy					Oregon		HIGH			
Ilex aquifolium		English holly							ALERT			
Rubus discolor		Himalayan blackberry					Oregon		HIGH			
Vinca major		periwinkle							MODERATE			
RED ALERT												
Acaena novae-zelandiae		biddy-biddy			A		Oregon					
Calystegia sylvatica		morning glory										
Centaurea X pratensis		meadow knapweed			A		OR/WASH		ALERT			
Euphorbia esula		leafy spurge			A		OR/WASH		ALERT			
Polygonum cuspidatum		Japanese knotweed, giant,Himlayan			B		Oregon		ALERT			
MONITOR												

Arctotheca calendula		sterile capeweed		A				MODERATE					
Berberis darwinii		Darwin's barrberry						Evaluated; not listed					
Hypericum calycinum		creeping St. Johnswort											
Oxalis rubra		red oxalis											
RIPARIAN/AQUATIC/FRESHWATER													
Scientific Name		Common Name		CDFA Rating		Quarantine		Cal IPC					
PRIORITY MANAGEMENT													
Agrostis stolonifera		creeping redtop						LOW					
Arundo donax		giant reed						HIGH					
RED ALERT													
Egeria densa		Brazilian waterweed				OR/WASH		HIGH					
Euphorbia esula		leafy spurge		A		OR/WASH		ALERT					
Hydrocharis morsus-ranae		European frogbit		A		WASHINGTON							
Hydrilla verticillata		hydrilla		A		OR/WASH		ALERT					
Limnobium laevigatum		South American spongeplant		A									
Lythrum salicaria		purple loosestrife		B		OR/WASH		HIGH					
Myriophyllum aquaticum		parrot feather				WASHINGTON		ALERT					
Polygonum cusp.,sac.,polys.		big knotweeds		B		Oregon		ALERT					
MONITOR													
Parapholis strigosa		hairy sickle grass											
Phalaris arundinaceae		reed canary grass											
Polypogon maritimus		Mediterranean rabbits foot grass											
SALTMARSH/AQUATIC/BRACKISH WATER													
Scientific name		Common name		CDFA Rating		Quarantine		Cal IPC					
PRIORITY MANAGEMENT													
Spartina densiflora		dense flowered cordgrass				OR/WASH		ALERT					
RED ALERT													
Spartina alterniflora hybrids		cordgrass hybrids				OR/WASH		ALERT					
Zostera japonica		eel grass											
MONITOR													
Atriplex triangularis		spear leaved salt brush		This plant is native to California coast; even NCO, why is it on the list?									
Salicornia bigelovii		Bigelow's pickleweed		This plant is native to southern California and occurs elsewhere.									
WMA definitions													
Red Alert:	The species is not present in WMA area OR has very FEW populations/ and or very limited distribution, such that complete eradication is												

	possible, even if it takes repeated eradication efforts. It's potential for spread and agronomic, economic or wildland impact is severe.		
	This is an early detection, rapid response action category.	These localized and satellite species, once located, will be actively managed.	
Monitor:	The group is uncertain where to rank these species; they seem like they could be a problem, are showing signs and patterns of invasiveness; but are not as high a priority as others. For now, the best course of action taken for these species is to observe, map, or set up study plots to quantify its spread or patterns of invasiveness.		
Priority Management:	These species are present in the WMA and are under ongoing, active management. They are impacting agronomic, economic, or wildland resources. Combined efforts between members of the WMA can significantly work towards complete eradication or containment of these species. Efforts include direct weed control, public education and outreach, prevention, mapping, etc.		
CALIFORNIA DEPARTMENT OF FOOD AND AGRICULTURE (CDFA) Pest Plant Ratings			
To advise commissioners as to the Department's policy regarding any pest action.			
DEFINITIONS			
A	An organism of known economic importance subject to state (or commissioner when acting as a state agent) enforced action involving: eradication, quarantine, containment, rejection, or other holding action.		
B	An organism of known economic importance subject to: eradication, containment, control or other holding action at the discretion of the individual county agricultural commissioner.		
OR	An organism of known economic importance subject to state endorsed holding action and eradication only when found in a nursery.		
C	An organism subject to no state enforced action outside of nurseries except to retard spread. At the discretion of the commissioner.		
OR	An organism subject to no state enforced action except to provide for pest cleanliness in nurseries.		
Q	An organism or disorder requiring temporary "A" action pending determination of a permanent rating. The organism is suspected to be of economic importance but its status is uncertain because of incomplete identification or inadequate information.		
In the case of an established infestation, at the discretion of the Assistant Director for Plant Industry, the Department will conduct surveys and will convene the Division Pest Study Team to determine a permanent rating.
